BIOMETRIKA

FOUNDED BY

W. F. R. WELDON, FRANCIS GALTON AND KARL PEARSON

MANAGING EDITOR

E. S. PEARSON

ASSOCIATE EDITORS

M. G. KENDALL JOHN WISHART

in consultation with

HARALD CRAMÉR J. B. S. HALDANE

F. N. DAVID H. O. HARTLEY

R. C. GEARY D. G. KENDALL

VOLUME 43

1956

ISSUED BY

THE BIOMETRIKA OFFICE, UNIVERSITY COLLEGE, LONDON

PRINTED AT THE UNIVERSITY PRESS, CAMBRIDGE

PRINTED IN GREAT BRITAIN

CONTENTS OF VOLUME 43

Memoirs and Miscellanea

PAGE

ANIS, A. A. On the moments of the maximum of partial sums of a finite number of independent normal variates 79

ANSCOMBE, F. J. On estimating binomial response relations 461

BAILEY, N. T. J. On estimating the latent and infectious periods of measles:

I. Families with two susceptibles only 15

II. Families with three or more susceptibles 322

BAILEY, N. T. J. Significance tests for a variable chance of infection in chain-binomial theory 332

BARTHOLOMEW, D. J. A sequential test of randomness for events occurring in time or space 64

BARTON, D. E. A class of distributions for which the maximum-likelihood estimator is unbiased and of minimum variance for all sample sizes 200

BARTON, D. E. *Addendum.* The limiting distribution of Kamat's test statistic . 386

BARTON, D. E. and DAVID, F. N. Tests for randomness of points on a line . . 104

BLANK, A. A. Existence and uniqueness of a uniformly most powerful randomized unbiased test for the binomial 465

BLISS, C. I., COCHRAN, W. G. and TUKEY, J. W. A rejection criterion based upon the range 418

BLOM, G. *Corrigenda* to 'Transformations of the binomial negative binomial, Poisson and χ^2 distributions' 235

BOSE, R. C. Paired comparison designs for testing concordance between judges . 113

BROADBENT, S. R. Examination of a quantum hypothesis based on a single set of data 32

BROADBENT, S. R. Lognormal approximation to products and quotients . . 404

BUTCHER, J. C. Treatment variances for experimental designs with serially correlated observations 208

COCHRAN, W. G. (*See* BLISS, C. I.)

COX, D. R. A note on the theory of quick tests 478

CROW, E. L. Confidence intervals for a proportion 423

DANIELS, H. E. The approximate distribution of serial correlation coefficients . 169

DARWIN, J. H. The behaviour of an estimator for a simple birth and death process 23

DAVID, F. N. (*See* BARTON, D. E.)

DAVID, F. N. A note on Wilcoxon's and allied tests 485

DAVID, H. A. On the application to statistics of an elementary theorem in probability 85

DAVID, H. A. Revised upper percentage points of the extreme studentized deviate from the sample mean 449

PAGE

DERMAN, C. Some asymptotic distribution theory for Markov chains with a denumerable number of states 285

DOUGLAS, J. B. Tables of Poisson power moments 489

GANI, J. Sufficiency conditions in regular Markov chains and certain random walks 276

GANI, J. *Corrigenda* to 'Some theorems and sufficiency conditions for the maximum-likelihood estimator of an unknown parameter in a simple Markov chain' . 497

GILBERT, N. E. G. Likelihood function for capture-recapture samples . . . 488

GOOD, I. J. and TOULMIN, G. H. The number of new species, and the increase in population coverage, when a sample is increased 45

GUEST, P. G. Grouping methods in the fitting of polynomials to unequally spaced observations 149

HALDANE, J. B. S. and SMITH, SHEILA MAYNARD. The sampling distribution of a maximum-likelihood estimate 96

HANNAN, E. J. (*See* WATSON, G. S.)

HARLEY, B. I. Some properties of an angular transformation for the correlation coefficient 219

HEALY, M. J. R. Weighted probits allowing for a non-zero response in the controls 207

HUTTLY, N. A. The fitting of regression curves with autocorrelated data . . 468

JAMES, G. S. (*See* TRICKETT, W. H.)

JAMES, G. S. On the accuracy of weighted means and ratios 304

JENKINS, G. M. Tests of hypotheses in the linear auto-regressive model. II. Null distributions for higher order schemes: non-null distributions. 186

KAMAT, A. R. A two-sample distribution-free test 377

KENDALL, M. G. Studies in the history of probability and statistics. II. The beginnings of a probability calculus 1

LAWLEY, D. N. Tests of significance for the latent roots of covariance and correlation matrices 128

LAWLEY, D. N. A general method for approximating to the distribution of likelihood ratio criteria 295

MCFADDEN, J. A. An approximation for the symmetric, quadrivariate normal integral 206

MALLOWS, C. L. Note on the moment-problem for unimodal distributions when one or both terminals are known 224

MEDHI, J. A note on the risks of error involved in the sequential ratio test . . 231

MITRA, S. K. (*See* ROY, S. N.)

MOORE, P. G. The estimation of the mean of a censored normal distribution by ordered variables 482

PILLAI, K. C. S. On the distribution of the largest or the smallest root of a matrix in multivariate analysis 122

PAGE

QUENOUILLE, M. H. Notes on bias in estimation 353

RAY, W. D. Sequential analysis applied to certain experimental designs in the analysis of variance 388

REIERSØL, O. A note on the signs of gross correlation coefficients and partial correlation coefficients 480

ROY, S. N. and MITRA, S. K. An introduction to some non-parametric generalizations of analysis of variance and multivariate analysis 361

ROY, S. N. and SARHAN, A. E. On inverting a class of patterned matrices . . 227

ROYSTON, ERICA. Studies in the history of probability and statistics. III. A note on the history of the graphical presentation of data 241

RUBEN, H. On the moments of the range and product moments of extreme order statistics in normal samples 458

RUBEN, H. On the sum of squares of normal scores 456

SMITH, SHEILA MAYNARD. (*See* HALDANE, J. B. S.)

STUART, A. Bounds for the variance of Kendall's rank correlation statistic . . 474

TAYLOR, J. Exact linear sequential tests for the mean of a normal distribution . 452

TOULMIN, G. H. (*See* GOOD, I. J.)

TRICKETT, W. H., WELCH, B. L. and JAMES, G. S. Further critical values for the two-means problem 203

TUKEY, J. (*See* BLISS, C. I.)

WALKER, A. M. A goodness of fit test for spectral distribution functions of stationary time series with normal residuals 257

WATSON, G. S. On the joint distribution of the circular serial correlation coefficients 161

WATSON, G. S. A note on the circular multivariate distribution 467

WATSON, G. S. and HANNAN, E. J. Serial correlation in regression analysis. II . 436

WATSON, G. S. and WILLIAMS, E. J. On the construction of significance tests on the circle and the sphere 344

WELCH, B. L. (*See* TRICKETT, W. H.)

WHITTLE, P. On the variation of yield variance with plot size 337

WILLIAMS, C. B. Studies in the history of probability and statistics. IV. A note on an early statistical study of literary style 248

WILLIAMS, E. J. (*See* WATSON, G. S.)

WILLIAMS, R. M. The variance of the mean of systematic samples 137

WISE, J. Stationarity conditions for stochastic processes of the autoregressive and moving-average type 215

WISHART, J. χ^2 probabilities for large numbers of degrees of freedom . . . 92

WOODING, R. A. The multivariate distribution of complex normal variables . 212
